

ABOUT US

We are a top infrastructure company that specializes in supporting the construction, interior, electrical and infra development sectors.

The top infrastructure development firm in India, APRA PROJECTS PVT. LTD, emphasizes sustainable growth for smart cities and advocates for universal access to basic services. In addition to building and commissioning, APRA PROJECTS PVT. LTD. has combined its expertise in deep engineering, process technology, project management, and resource management.

The projects carried out by APRA PROJECTS PVT. LTD has established new standards for contemporary building and time management.

We think that difficulties are a necessary part of our professional lives since they provide us the chance to succeed. I see happier and more exciting times ahead, when Team Power will reach many more milestones. I have faith in the power of our people because they have proven it time and time again.

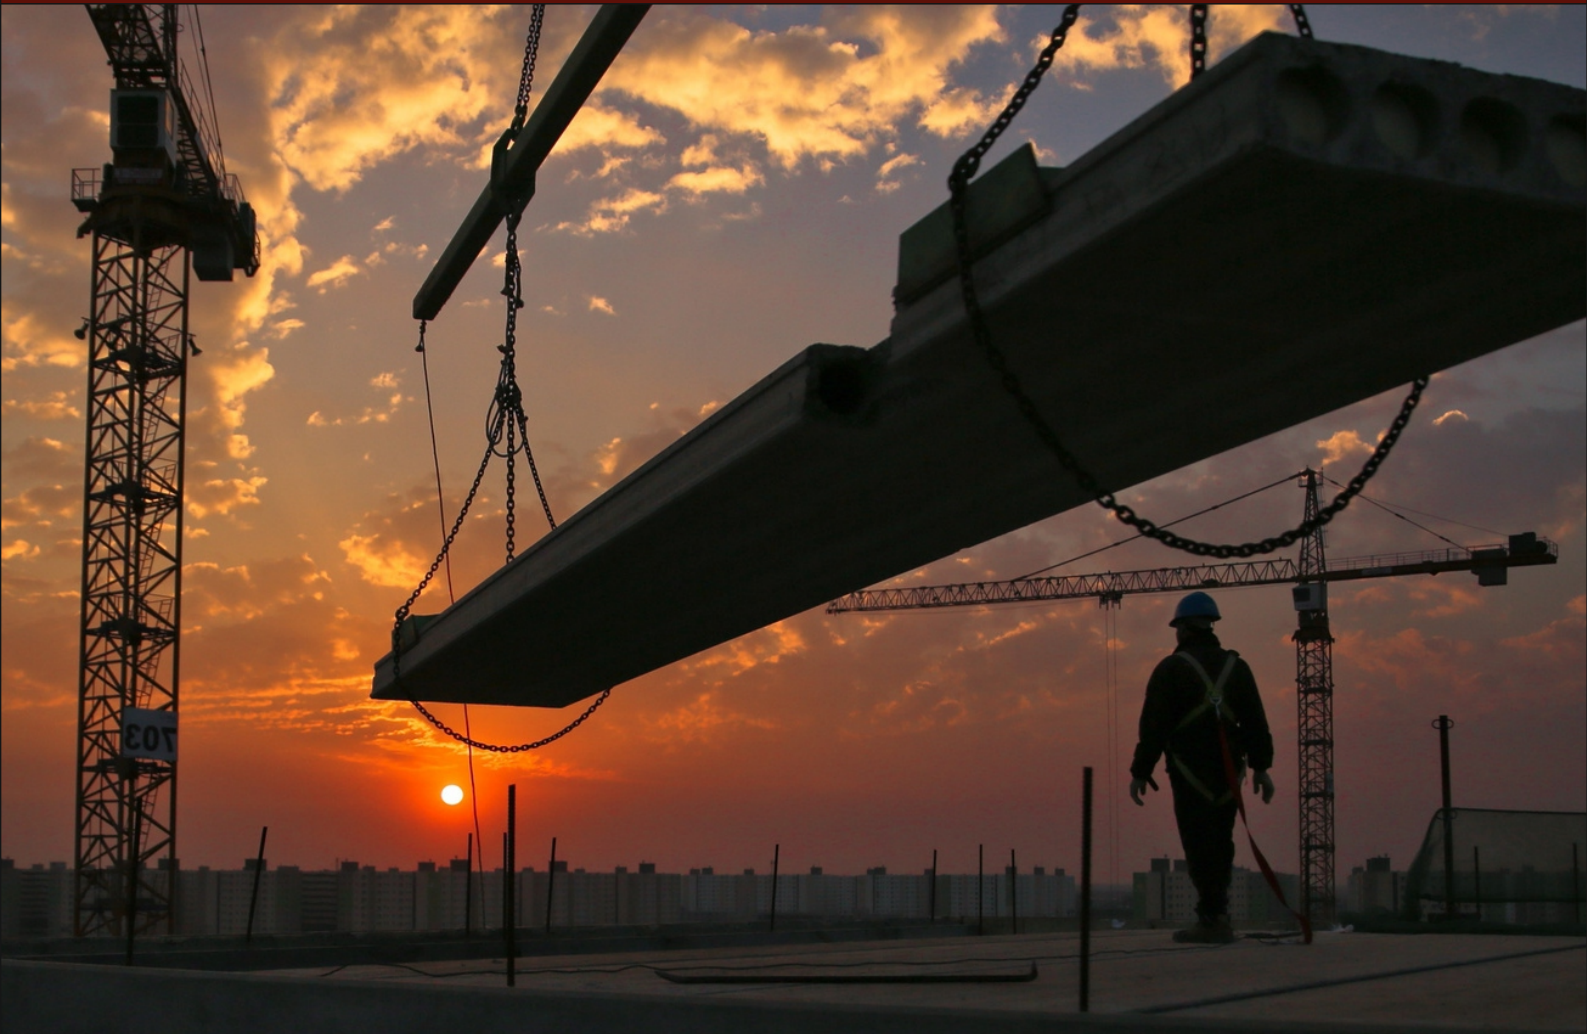

MISSION

By providing building of the highest calibre that endures the test of time, we work hard to satisfy the expectations of our clients, both corporate and individual, as well as investors. All of this is accomplished through openness, flexible requirements, prompt delivery, and the highest standards of expertise and integrity.

VISION

To be a global leader in businesses that improve people's lives and aid in constructing infrastructure for countries through sustainable value generation.

CORE VALUE

SAFETY

Safety comes first. We invest in jobsite safety and continuing education to provide a safe working environment for everyone working on, visiting, or working near our job sites.

CUSTOMER SERVICE

We continually improve our training, tools and processes to increase the quality of service we provide our clients.

QUALITY

We'll meet your expectations, then we'll exceed them. Our team members will prove themselves to you through the success and the quality of your project.

INTEGRITY

Your best interest is our only interest. And we'll move forward using our company's core values to establish mutual trust, and give you the best.

SAFETY & ENVIRONMENTAL POLICY

For APRA PROJECTS PVT. LTD , health and safety have always come first, and it is ingrained in the company's basic values. The challenge of ensuring the safety of all the company's employees and contractors' personnel was never simple. However, the organization has succeeded thanks to tenacity, diligence, and the involvement of everyone, from top management to the base. A solid example of safe behavior is the company's effectiveness in maintaining a secure working environment in the Plant, Mine, and office spaces.

Every employee and anybody connected to the business must adhere to the company's basic safety policies. Personal Protective Equipment (PPE), holding hand rails, maintaining a clean and orderly home, refraining from taking shortcuts, etc. have been deemed to be requirements for everyone employed by the company. Serious accidents occurring in sponsor group facilities are simulated by the business so that staff members and contractors can learn from them and apply what they've learned to their respective work environments. The APRA PROJECTS PVT. LTD ultimate mission is to dominate the field of safety. To maintain the improvement in the area of safety, action plans have been established for each of the company's locations.

SAFETY COMMITMENT

Our staff and workers and their families are of principal importance for us. As a company we are dedicated to achieve safety superiority in our business. We have set in safety an essential part of business and we anticipate that each one of us, irrespective of functional area, shall bear by organisational safety policy and principals. We also understand that good safety is achieved only through continued commitment, practice and demand.

- ✓ Value and respect for safety system
- ✓ High level compliance to safety standards, rules and procedures.
- ✓ Safety as non negotiable aspect.
- ✓ We aim for zero fatality, zero injury and zero excuses.
- ✓ Each and every individual working with the organisation shall contribute through responsible behaviour "on" and "off" the site

We have always prioritised our values. Our activities that enable us to change the world are guided by our common values. These principles continue to guide business development. Since we are aware of the customer's requirements, we realize that we must move promptly to allow others to give their best effort.

Sectors

CONSTRUCTION

We provide direct access to a group of highly skilled and knowledgeable specialists who provide consulting services in preparatory work, building design, construction management, as well as construction supervision and maintenance work, to our clients. Almost every form of construction project, including residential dwellings, schools, hotels, sports facilities, offices, industries, hospitals, and health centres, has had APRAPROJECTS PVT. LTD as an engineering consultant.

INTERIOR

A full-service interior design company, APRA PROJECTS PVT. LTD, provides design and decoration solutions for home and small-scale commercial projects. We provide decorating and interior design services. We Offer :-

- Furniture layouts using new and existing furniture
- Space planning and purchasing
- Floor plans, elevations, details, and renderings
- Custom furniture, cabinet, and millwork design
- Kitchen and bathroom design

ELECTRICAL

For industrial and commercial clients, APRA PROJECTS PVT. LTD has delivered superior electrical services and solutions.

To address the electrical requirements of commercial and industrial businesses, Electrical Services Company is particularly suited. We recognise that delivering electrical solutions in a fast, safe, and professional manner is crucial to your company's success.

INFRA DEVELOPMENT SECTORS

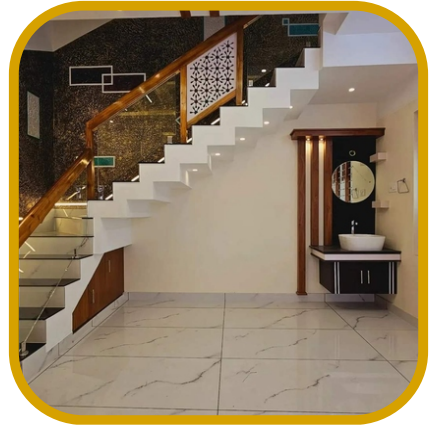

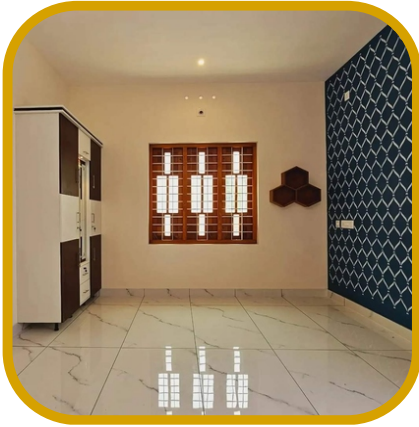

It is widely acknowledged that good infrastructure is essential for long-term economic growth and development.

To promote growth and development, we are taking steps to open up the infrastructure development.

Over the past few years, investment in this field has picked up steam and is expanding quickly in all areas of infrastructure.

However, the current investment in this area only scratches the surface of the enormous opportunity for infrastructure development that exists.
